

January 2017

GENERAL INFORMATION

Trade name

Emsodur N

Type of product

Deflashing media based on polyamide

Applications

Deflashing of thermoset parts

Methods

Blast wheel (turbine), jet blasting, injector method

Manufacturer

Emsodur AG

In Kooperation mit
Rösler Schweiz AG

DEFLASHING WITH EMSODUR N

If you are looking for a perfect finish and reducing your deflashing costs at the same time by using a long lasting high quality deflashing media where less post-processing is required, then **Emsodur N** is the right choice for you!

Key features

- exact cubic cut
- high impact strength
- dimensional stability
- abrasion resistant
- extremely long durability
- less dust formation on parts

Technical Data

Specific weight	1.14 g / cm ³
Hardness Shore-D	67
Hardness Rockwell	96
Hardness Mohs	2-3
Chemical composition	Polyamide 6, additives < 1%

Available standard products

Dimension (mm)	Shape	Colour
0.30	Cylindrical	Natural, red
0.40	Cylindrical	Natural, red
0.50	Cubic, cylindrical	Natural, red
0.75	Cubic, cylindrical	Natural, red
1.00	Cubic, cylindrical	Natural, red
1.20	Cubic, cylindrical	Natural, red
1.50	Cubic, cylindrical	Natural, red
2.00	Cubic, cylindrical	Natural, red

We are very flexible in regard of customer needs and can vary in sizes and colours.
